Career Summary

Computer Science and Engineering undergraduate with hands-on internship experience in software development and machine learning. Passionate about problem-solving, having actively built foundational skills through competitive programming and hackathons. Proficient in Python, Java, C/C++ and GenAI technologies, seeking collaborative projects and internships in Full-Stack Development and AI/ML.

Education

Siksha O Anusandhan University — Bhubaneswar, Odisha
Bachelor of Technology in Computer Science & Engineering; CGPA: 8.71 — *June 2023 – June 2027*
Shiksha Niketan — Jamshedpur, Jharkhand
Higher Secondary Education (CBSE Class XII); Percentage: 76% — *April 2021 – April 2023*

Internships

Generative AI Intern — March 2026
Prodigy InfoTech — *Remote*
Software Development Intern — March 2026
SkillCraft Technology — *Remote*
Java Development Intern — July 2025 – August 2025
Pinnacle Labs — *Remote*

Projects

Text-to-Image Generator | ***Generative AI, Stable Diffusion, PyTorch, Gradio, Python***

- Developed a generative AI web app on Google Colab's **T4 GPU** using **Stable Diffusion v1.5**, with advanced controls (**negative prompts, inference tuning, CFG adjustments**) and deployed an interactive **Gradio frontend** for real-time, browser-based **text-to-image generation**.

Image-to-Image Translation with cGAN (Pix2Pix) | ***GANs, Computer Vision, TensorFlow, Gradio, Python***

- Built a **Conditional GAN (Pix2Pix)** with a **U-Net Generator** and **PatchGAN Discriminator** to translate **satellite imagery** into **high-resolution map layouts**, deploying a **Gradio web app** for real-time browser-based inference.

Flight Booking System | ***Java, MySQL, Swing***

- Built a **flight reservation system** with **real-time seat selection** and **booking flow**.
- Developed **admin panel** for **CRUD operations** with modular architecture.

E-Commerce Web Scraper | ***Java, Java Swing, Jsoup, Maven, CSV***

- Built a **GUI-based scraper** to extract real-time product data and export structured **CSV files**.
- Implemented **error handling**, **timeouts**, and a **user-friendly interface** for non-technical users.

Certifications

Infosys Springboard: Front-End Web Development (HTML5, CSS3, JavaScript), **JPMorgan Chase & Co. (Forage):** Software Engineering Simulation, **Pinnacle Labs:** Java Development, **HackerRank:** Java (Basic)

Technical Skills

Languages:	Java, Python, C, C++, SQL
AI/ML & Deep Learning:	Stable Diffusion, PyTorch, NLP, Deep Learning, Generative AI
Web & App Development:	HTML5, CSS3, Java Swing, Gradio, REST API
Databases:	MySQL, Oracle
Tools & Platforms:	GitHub, Google Colab, IntelliJ, VS Code, Eclipse, Apache NetBeans, Maven
Frameworks:	Spring
Core CS:	Data Structures & Algorithms, OOPS, API Integration, Web Scraping

Achievements & Interests

Awards: Writing competition winner, **Coding:** Active on LeetCode, HackerRank, GitHub, **Interests:** Full-Stack, AI/ML, Cybersecurity, Open Source, **Languages:** English, Hindi, German (Basic)
